4 First aid measures

.Inhalation: Remove from exposure and move to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid.

.Eye contact: Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid.

.Skin contact: Flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical aid if irritation develops or persists. Wash clothing before reuse.

.Ingestion: If victim is conscious and alert, give 2-4 cupfuls of milk or water. Never give anything by mouth to an unconscious person. Get medical aid.

5 Fire-fighting measures

.General Information:

As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

.Suitable Extinguishing Agents:

SMALL FIRE: Use DRY chemical powder.

LARGE FIRE: Use water spray, fog or foam. Do not use water jet.

.Products of Combustion:

Irritating and toxic gases or fumes may be released during a fire.

.Special Fire Fighting Procedures:

Firefighters should wear self-contained breathing apparatus and full fire-fighting turn-out gear (bunker gear). Keep personnel removed and upwind of fire. Water should be used to keep fire-exposed containers cool.

.Special Remarks on Fire and Explosion Hazards:

Fire may produce irritating gases and dense smoke.

6 Accidental release measures

General: Use proper personal protective equipment as indicated in Section 8.

.Environmental precautions:

Not Available.

.Measures for Cleaning/Collection:

Vacuum or sweep up material and place into a suitable disposal container. Avoid generating dusty conditions. Remove all sources of ignition. Use a spark-proof tool. Provide ventilation.

7 Handling and storage

.Precautions: Use proper personal protective equipment as indicated in Section 8.

.Handling: Keep away from heat. Ground all equipment containing material. Do not breathe dust. Keep away from incompatibles such as oxidizing agents, metals, acids. Use with adequate ventilation. Minimize dust generation and accumulation. Avoid contact with eyes, skin, and clothing. Empty containers retain product residue, and can be dangerous. Avoid ingestion and inhalation.

.Storage: Keep away from heat, sparks, and flame. Keep away from sources of ignition. Store in a cool, dry place. Store in a tightly closed container. Keep from contact with oxidizing materials & flammables-area.

8 Exposure controls/personal protection

.Engineering Controls:

Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

.Exposure Limits:

Not Available.

Personal Protection Equipment:

.Respiratory Protection: None required under normal conditions of use. Wear approved respirator if exposure limits are exceeded

.Ventilation Protection: Local ventilation.

.Protective Clothing: Lab coat.

.Protective Gloves: Gloves.

.Eye Protection: Safety glasses.

Personal Protection in Case of a Large Spill:

Splash goggles. Full suit. Respirator. Boots. Gloves. A self-contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

Ventilation:

.Local exhaust: MSHA/NIOSH approved respirator. Appropriate respirator depends upon type and magnitude of exposure.
